Praise points - thank God for:

- Australia, where we are free to share our faith without fear of persecution from the government.
- all the gifts, abilities and privileges we enjoy here at Christians in the Media

Pray for:

- God to be working in people's hearts in the Inner West and already preparing people to come to events and for their hearts to be softened to the Gospel
- For good conversations to be had during the course of the weekend and for God's name to be honoured in everything that is said
- For lots of people at church to be willing to get involved and that those who are able take the time off work
- For all of the events to run smoothly and for the leaders to be organised
- For all the logistics and organisation that goes into running a mission - that it would all come together in time
- For creative ideas on how to reach the people of the Inner West
- For Ed Francis and Sam Boog to work well together and to be prayerful in everything
- For Andrew Barry as he prepares his talks for team teaching
- That those involved would learn heaps from God's word and build relationships with people at church
- That as a church we would seek to honour the name of the Lord Jesus through this mission and see more people acknowledge Him as Lord and Saviour.
